

Taking away the weather and traffic channels would be a disservice to all of the XM listners, like myself, that PAY for radio. If you want traffic and weather on FREE radio, you have to usually wait for it and by the time you get it, you have already experienced it or are already in it. If you noticed, I emphasized the words PAY and FREE. We, the XM listeners, pay a monthly fee for our radio. Due to this fact, we should be allowed to have anything we want at anytime we want when it comes to OUR XM radio. Please keep this in mind as you listen to your FREE broadcast FM radio on the way to work and are wishing you would just pay the \$120.00 for the receiver and \$9.99 for the subscription each month.
